Forecast for Monday 08 Jul 2024

Weather: A fine start to Monday with some bright spells once any mist of fog clears. However, turning cloudier throughout the day with rain arriving later into the afternoon from the south and then turning heavy during the evening.

Chance of cloud-free hill tops above 600m: 90%, dropping to 40% by the afternoon.

Low cloud and visibility: Cloud above the summits for the morning, but then dropping to 500-600m as rain arrives by the afternoon. Very good visibility to start but lower to poor in the rain and lower cloud.

Forecast for Tuesday 09 Jul 2024

Weather: Heavy outbreaks of rain moving through during the early hours with low cloud. Patchy rain and drizzle through the afternoon before possibly easing into the evening.

Maximum wind: Southeasterly 20-25 mph gusting 30-35 mph.

Chance of cloud-free hill tops above 600m: 20%, possibly increasing later in the day.

Low cloud and visibility: Widespread low cloud down to 300-400 m, lifting and breaking into the evening to 600 m though confidence in detail remains low. Generally poor visibilities, especially under persist rain and drizzle.

Temperature: **Valleys:** Plus 14 Celsius rising to Plus 19 Celsius.
At 600m: Plus 9 Celsius rising to Plus 15 Celsius.
Freezing level: Above summits.
